

DLO's Playbook for Deployment of AAP in support of Leadership Development **Building Blocks**

In alignment with VA's strategic plan and priorities

Per Contract Deliverables:

6.2.i. Provide suggested curricula of courses that can be taught together for students to learn a specific competency. For instance, a curriculum for a competency might include developmental assessments, on-demand online courses, instructor-led virtual courses, and instructor-led in-person courses that work together to teach a competency. This will allow instructors to use “ready-made” curriculum packages of different learning products without having to research what courses work together for a competency.

6.5.c. Develop a learner and Designated Learning Officer (DLO) playbook for deployment of the solution, which is a guide describing the interaction and expectations between vendor and VHA DLO's or Designated learning leaders.

6.5.e. Map competencies specific to outcomes in alignment with VA's strategic plan and priorities.

Franklin Covey[®]
THE ULTIMATE COMPETITIVE ADVANTAGE

A Note on the Leadership Development Framework:

This playbook provided by FranklinCovey, is intended to meet the contract deliverables of the All Access Pass and *supplement* the tools provided by HLTI to meet the requirements of the Leadership Development Framework (LDF). FranklinCovey content is certainly not the only content available to VHA learning professionals and this learning guide is not meant to be single option alignment to the LDF. Instead, the intent of this playbook is to help you, as a learning leader, easily identify the specific elements of the All Access Pass and Jhana that could supplement your training plans in support of the LDF.

A Note on LeadX

*We want to clarify that Covey products are not in competition with HLTI's Exploration in Leadership (LeadX) program. **LeadX is intended to be VHA's answer to self-development.** FranklinCovey's resources from the All Access Pass Portal and Jhana are intended to supplement, rather than replace LeadX.*

How to use these building blocks

This building blocks document includes a high-level infographic mapping FranklinCovey core content to the VA's Leadership Development Framework and provides an additional page of detail for each leader level that provides an explanation of the content aligned to that leader level and how it maps to the competencies to specific to that level of leadership.

Each level of leadership contains three components:

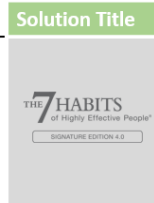

- 1 **"Description of alignment"** – A narrative describing how the identified content area maps to the required competencies of that leader level.
- 2 **"Content modalities"** – An outline of the modalities in which the content is available so that as a learning professional, you can pull the solution into your environment (i.e. in person vs. live webinar vs. e-learning, amount of time, etc.)
- 3 **"Jhana"** – The specific Jhana topics and video discussion guides that provide reinforcement and sustainment for the competencies outlined in that leader level of the LDF

What about other FranklinCovey content areas not included in the infographic?

- **5 Choices** (*time management*)
- **7 Habits for Managers** (*supervisory refresher*)
- **7 Habits Leader Implementation** (*for leaders supporting 7 Habits in emerging leaders and working on culture*)
- **Leading Customer Loyalty** (*includes both a managerial and individual contributor track*)
- **Meeting Advantage** (*for anyone responsible for running meetings*)
- **Building Business Acumen** (*focused on understanding profit and loss across any business/organization*).

The framework of the 7 Habits is called the Maturity Continuum and is divided into three segments – the private victory is focused on personal accountability (Habit 1 – Be Proactive), resilience (Habit 2 – Begin with the End in Mind) and integrity/honesty (Habit 3 – Put first things first). The second component of the maturity continuum is focused on interpersonal skills and how we build what FranklinCovey calls the public victory through effective problem solving (Habit 4 – Think Win-Win), effective listening to support interpersonal skills (Habit 5 – Seek First to Understand, then to Be Understood) and team building and leveraging diversity (Habit 6 – Synergize). This is essentially the task of a team leader. The Project Management Essentials courses aligns the five-part PMI model – Initiate, Plan, Execute, Monitor & Control and Close – with four fundamental people leadership skills – Demonstrate Respect, Listen First, Clarify Expectations and Practice Accountability to meet the required competencies of this leader level. This tools-heavy content pushes leaders to think critically about the different components of a problem, evaluate risk and rally the team around solving that problem, focuses on the importance of partnering through the people leadership component of the course to include a key stakeholder interview focused on influencing and negotiating, a team accountability framework to build accountability and integrity/honesty in recognizing achievements, highlighting opportunities and surfacing lessons learned, and a project scope tool to drive decisiveness as changes arise.</p>	<ul style="list-style-type: none"> • Problem Solving • Accountability • Partnering • Influencing/ • Negotiating • Integrity/ • Honesty • Decisiveness 	<ul style="list-style-type: none"> • 1-day ILT • 3x90 minute VILT • 2-hour VILT • Excelerators (5) • Insights (6)

Core Content	<p>Click above to visit the 'Solutions' page in your All Access Pass Portal</p>	The Speed of Trust is built around three core models to reinforce managerial competencies to include (1) the five waves of trust – self trust, relationship trust, organizational trust, market trust and societal trust; (2) the four cores of credibility – integrity, intent, capabilities and results; and (3) the 13 trust behaviors - talk straight, demonstrate respect, create transparency, right wrongs, show loyalty, deliver results, get better, confront reality, clarify expectations, practice accountability , listen first, keep commitments and extend trust. The 13 trust behaviors become a language through which to solve problems, partner better, influence and negotiate .
